There are four distinct themes:

Almost 100 years old, Forest Glade Gardens covers around 6 hectares or 14.5 acres.

The large English Section with its huge exotic trees and ornamental plants

The delightful Japanese garden complete with bonsai house and display

Rolling lawns with masses of spring colour

The cool fern gully

There are numerous statues, fountains, pergolas and ponds to discover throughout the garden. You can sit in the shade of many a tree and simply wonder at the magnificent beauty that surrounds you.
